

BISHOP PARKER ENTERTAINED AT CHRIST CHURCH

George Washington Chapter
Serves Supper and Gives
Impromptu Minstrel Show.

George Washington Chapter of the Brotherhood of St. Andrews, connected with Christ church, gave a supper and entertainment on Monday evening at the parish house that was attended by upwards of one hundred of the male members of the parish, and was of a very successful and enjoyable affair. The special guests of the evening were Bishop Conductor Edward M. Parker, Rev. Charles V. Brine, rector of Christ church, and Rev. Mr. McBride.

Supper was served at 6.30 o'clock, the menu consisting of hot roast beef, lobster salad, radishes, pickles, mashed potatoes, hot rolls, assorted cake, ice cream, coffee.

The kitchen was in charge of George E. Kar, John Hooper and Albert Woolgar. The servers were Harold A. Marston, Clinton Trueman, Albert Woolgar, Morrison Weston.

After ample justice had been done to the excellent repast the assemblage was called to order by President Washington Stott and interesting remarks were made by Bishop Parker, Rev. Mr. Woods, Rev. Mr. Brine and Rev. Mr. McBride. A letter of regret was read from the venerable Bishop William M. Niles of Concord, head of the New Hampshire diocese.

A social hour followed during which an impromptu minstrel show was given, songs being rendered by Roy Ward, Thurston Smart, William Weston, Edward Warburton, John Hooper and others.

The officers of George Washington Chapter are: President, Washington Stott; secretary, William E. Mercer; treasurer, Andrew J. Horning.

PETITIONS IN BANKRUPTCY

Petitions in bankruptcy filed with the clerk of the United States court last week, included the following: William J. Darrah, Manchester; James A. Garland, Portsmouth.

YOUNG MEN SEEK CONTROL

Republican State Leaders Discuss Party Issues at Concord

Concord, May 12.—State leaders of the Republican party met in this city this afternoon for the purpose of forming a plan to reorganize the state committee. The present political situation was discussed at length by several from different places, and it was agreed that an early start will be made for the 1914 campaign.

Sherman E. Burroughs of Manchester, candidate for the congressional nomination in 1910, in the first district was the presiding officer, and Judge Benjamin W. Couch of this city chairman of the judiciary committee of the house of representatives, was chosen secretary. The meeting took place at the state headquarters of the party in White's Opera House.

It was voted to choose a committee of thirteen, consisting of the chairman and secretary, and a representative of each county, with an extra number of Hillsborough county, to carry out the wishes of the meeting. The county members will be appointed by the chairman. These thirteen will seek a conference with a similar committee from the Republican state organization and suggest to that organization that it enlarge or otherwise vitalize itself for the next campaign.

Among those who addressed today's meeting were Representative Edwin C. Benn of Belmont, chairman of the legislative caucus; Judge Oscar P. Young of Laconia, former head of the state committee; Col. Rufus N. Elwell of Exeter, former speaker of the house; Charles S. Emerson of Milford, Representative Richard Pillsbury of Manchester, secretary of the legislative caucus; Representative Edward H. Wason of Nashua, candidate for nomination for speaker at the legislative caucus; Representative

Charles A. Perkins of Manchester, nominee for speaker, and Jailer George H. Spinney, and former senator John B. Cavanaugh of Manchester.

Among others interested in the movement were Senator Harry G. Clough of Manchester, Mayor Dwight Hall of Dover, Roland Spaulding of Rochester, Representative Robert A. French of Nashua, Willis McDuffee of Rochester, Arthur Cass of Tillam, Former Councilor John M. Gile of Haverhill, Arthur J. Boutwell of Hopkinton, John Potter of Conway, Mark Robertson of Tamworth, Representative Edward J. Bartlett of Hanover, former councilor J. Upham Dunton of Claremont, and Fred T. Wadleigh of Milford.

It was the sentiment of all the speakers that the state committee should be reorganized and younger men put into positions of importance; that the senior members of the organization should be requested by the committee named, to voluntarily step down and allow the infusion of new blood into the active work of the coming campaign.

The effect of the Democratic tariff bill it was stated, be fully as disastrous to that party in this state as will the colossal blundering of the present state administration. Voters who quit the Republican party last year to join the Bull Moose movement will, it was asserted, not be content to waste their votes at many elections on a third party, trailing ticket, and will join one of the two regular parties. The Republican party should have such progressive principles and sound leadership as to attract these.

SMITH HAS SOUGHT OFFICE FOR SOME TIME

First Made Application for a Consular Position in 1907.

Charles Cogswell Smith of this city, who has been recommended by Senator Henry F. Hollis for appointment as consul to Portugal, has had his eye upon the diplomatic service for years.

In 1907 Mr. Smith made application to the bureau of appointments in connection with the consular service. Earlier in the year he made application for examination in the diplomatic service, but he was then advised that if he could establish a connection with the consular service he would find this a stepping stone to the diplomatic service. Mr. Smith was never designated for examination, and yesterday he read with some satisfaction that less than 5 per cent. of the applicants who have been designated for examination are democrats.

Portsmouth friends rejoice with Mr. Smith in the recommendation made to President Wilson and Secretary Bryan of the state department by Mr. Hollis. Possessing an elaborate knowledge of international law, a linguistic training that is said by his friends to be remarkable, and also a knowledge of important treaties and international events that have been collected by him by his several years preparation for the diplomatic service, Mr. Smith is said to be exceptionally qualified.

Mr. Smith was born in Dover, April 18, 1877, the son of the Rev. Dr. Percy Smith and Clara A. Smith of Candia. His father was then pastor of the Dover Congregational church. The Rev. Dr. Smith was formerly president of Shenandoah college, and he is said to be the first person who ever translated the elegies of Virgil into English hexameter verse. This translation was accepted by Yale university and was used in the Latin classes. His mother was a graduate of Mt. Holyoke college, where she obtained the degree of Ph.D.

Mr. Smith was educated in Williston Seminary, Burgess Institute, Monson academy and Bowdoin college. During his school life he obtained frequent recognition as a student of languages and sciences. His compositions on the relationship of sciences to the subsequent advancement of the students were commented upon as worthy of an adult mind. Following his graduation from Bowdoin in 1898, he took a post-graduate course in physics at Harvard and a special course in law at the Boston university, though he previously had been admitted to the bar of Maine.

Mr. Smith was admitted to the Maine bar in 1900, the Massachusetts bar in 1901 and the New Hampshire bar in 1905. He was admitted to practice in the United States district court in 1902. As the representative of Boston law firms he went to Cuba on American work and established several hundred titles on Spanish crown lands that were sold by the Cubans to American investors. He was then recognized as a student of French, Spanish, Russian, Portuguese, German, modern Greek and Arabic. His knowledge of Spanish and French were of inestimable value during his Cuban work.

Immediately after his graduation from Bowdoin college, Mr. Smith became principal of Limington academy in Maine. He then returned to New Hampshire and became principal of Milford high school, succeeding Henry Clinton Morrison, the present superintendent of public instruction. He was re-elected principal for two years, but he then decided to engage in an active practice of law.

His appointment in office was opposed by one or two democrats whom Mr. Smith forgot to advise that he desired to enter the diplomatic service. They arraigned him as a pretended citizen of New Hampshire and as a pretended democrat. Mr. Smith lived at Kittery, Me., from 1901 to 1904, at Salem in this state, the two succeeding years and since 1908, has maintained a residence and paid a poll tax in this city. His mystic Shrine application in 1905 showed his residence to be in Portsmouth; the local directory listed in 1908, contains his name and his residence as 41 Cabot street and "Who's who in New England," issued in 1909, shows his residence as this city and describes his political as democrat.

Mr. Smith was recommended for the consular service six years ago by the late John McLean of Milford, President William DeWitt Hyde of Bowdoin college, A. N. Frost of Boston and the Rev. Alexander J. Laurio, a distinguished Portuguese clergyman. He is recommended by the members of the Maine, New Hampshire and Massachusetts delegation now at Washington.

THINK MURDER WAS COMMITTED

Relatives of Arthur E. Wilmot Will Ask Attorney General to Investigate

Relatives of Arthur E. Wilmot, a shoe dealer, who was found dead in the road at Hedding on the night of February 22 with his throat cut from ear to ear are dissatisfied with the failure of the Rockingham county officials to act in the case, and are to present the matter to Atty. General James P. Tuttle, and ask that the state investigate the matter more fully, as they believe that Wilmot was foully dealt with.

It is stated that the medical referee Dr. John G. W. Knowlton at the time Wilmot was found, entered a report that death was due to possible suicide, but probable murder. His relatives claim that despite this report no legal investigation was made and that the evidence points to murder and that they propose to have the legal machinery set in motion to bring the guilty party to justice.

Wilmot had been employed in Auburn, Me., and the custom of his family being to get together on all holidays, he started for his home in Smithtown near the Massachusetts line. When he left Auburn he is known to have had 14.40 in his pocket and when found he had not a cent.

In some way he left the train at Rockingham Junction and is believed to have started up the tracks in the hope of finding a car to take him to Smithtown. When he reached Hedding he had a talk with Leo H. Babler, the station agent at about 2.30 o'clock and a little over an hour later he was found dead in the road. The discovery being made by Don Hendry who was driving a team from Epping toward her home in Newfields. She hastened home to her mother's, Mabel Hendry, and the authorities were notified.

The result of the investigation shows that Wilmot had a talk with Station Agent Leo H. Babler and this was the last known of Wilmot until his body was found. Since then Babler has been asked to be transferred, and is now station agent at Greenland.

The matter at the time was allowed to drop, but Wilmot's relatives began an investigation, and as a result are now to seek the action by the Atty. General. He was 30 years of age and has a mother living in Smithtown, and a wife in Amesbury; besides a brother Hobart Wilmot, who works in a shoe shop at Haverhill, Mass.

CHILDREN TRY TO LYNCH CHAUFFEUR

Police Rescue Driver of Truck That Killed Little School Girl.

New York, May 12.—The streets around public school No. 14 in Brooklyn were black with children just let out for luncheon today when an automobile truck belonging to a Jersey City coal dealer, became unmanageable and charged a group of little girls on the sidewalk. Mabel Bahrer, aged 10, was killed, and Marcelle Kelly, aged 4, was badly hurt. Led by a few grown ups, the children attacked O. L. Mount, the chauffeur, and were threatening to lynch him when police reserves rescued him. As the fatality appeared to be purely an accident, Mount was released by the police after they had escorted him out of danger.

GOMEZ TO JOIN WITH CARRANZA

Refusal to Recognize Huerta Said to Prevent Raising of Funds.

San Antonio, Tex., May 12.—Dr. Francisco Vasquez Gomez, who with his brother, Emilio, Vasquez Gomez, shares the leadership of the Gomez faction in Mexico, will meet Venustiano Carranza within a few days and possibly join forces with the leader of the rebellious troops in northern Mexico. Dr. Gomez, who was in San Antonio today on his way to Piedras Negras, Carranza's headquarters, made this admission but declared he knew nothing of a report that he was to be made provisional President of Mexico. Dr. Gomez is of opinion that Pres-

BEACHEY WILL QUIT THE FLYING GAME

Says He Could Not Be Induced to Enter an Airship at Re- volver's Point.

San Francisco, Cal., May 12.—Lincoln Beachey, aviator, will never fly again according to his statement at the Olympic Club.

"You could not make me enter an airplane at the point of a revolver," he solemnly asserted. "I'm done."

They called me the master birdman, but there was just one thing that drew crowds to my exhibitions—a morbid desire to see something happen. They all predicted that I would be killed and "done" wanted to miss getting in on it. They paid to see me die. The odds were always against my life.

Beachey read a roster of 24 aviators who had been killed when flying.

Two Pupils Killed

"Those boys were like brothers to me he said. In Chicago last September Kearney's mother begged me not to teach Horner any more tricks. Kearney turned and said, 'Mother, I must be a tap liner.' 'I must be as good as Beachey or take a backseat. I must try the same tricks that he does.'"

"Three months later he was dead." "The wife of Welsh begged him to cut out the spiral. Beachey does them he said. 'I must do them if I am to get the money.'"

"Charlie was doing the reverse spiral two weeks later at Trenton, N. J. A wire snapped; they picked him up dead. I felt that I had murdered poor Charlie."

"A few days later his body passed through Albuquerque, where I was with his widow and two babies. Mrs. Welsh became hysterical."

Mrs. Ely's Rebuff

"Some time later I sent some tickets to Mrs. Ely. She sent back the tickets writing:

"Eugene would be with me now if he had never seen you fly."

"At Taunton, last November when I heard the boys talking of trying the straight glide, I wanted to quit. After the first day I could hardly work. I was in the grip of fear—not for myself, but that I would make others kill themselves. When I left the field I vowed I would never step in an airplane again."

THE WEATHER

Washington, May 12.—Forecast for Southern New England—Fair and warmer Tuesday; Wednesday showing, cooler in West portion, moderate to brisk south and south west winds. Local forecast for Portsmouth and vicinity—Unsettled, generally fair Tuesday and Wednesday with rising temperature; moderate southerly to westerly winds.

GEO. B. FRENCH CO.

37-45 MARKET ST., PORTSMOUTH, N. H.

ARRANGING FOR TRIP OF THE VETERANS

Special Train Will Leave State
for Gettysburg on
June 28.

The New Hampshire agent for the Gettysburg celebration, General J. N. Patterson has issued a circular giving details of the trip.

It is important that all who contemplate the trip should file their names with their full address and their army or navy service at once, if they have not already done so under previous calls. The application should give the regiment, battery, vessel, etc., and the state from which they served. The receipt by mail of this circular is notification that the application has been filed.

The agent feels it his duty to call the attention of aged and disabled comrades to the necessity of carefully considering their condition before applying, as no little tax on their strength will be entailed and no one who has any doubt as to his ability to stand the strain should venture on the journey.

A special train has been arranged for to leave New Hampshire Saturday, June 28, with the following schedule:

Concord 6.30 p. m.; Manchester, 7 p. m.; Nashua, 7.30 p. m.; Ayer Junction, 8.30 p. m.; Worcester, 9.30 p. m.; Springfield, 11.30 p. m.; arrive New York 5 a. m.; arrive Pennsylvania railroad station, 6 a. m.; leave Pennsylvania railroad station 7 a. m.; arrive Philadelphia, 9 a. m.; arrive Gettysburg, 1.30 p. m.

The train will be made up of first class day coaches with an entire seat for each person and will be accompanied throughout by an experienced railroad official, and by the New Hampshire agent; the transfer from the Forty Second street station in New York to the Pennsylvania railroad station will be by taxi cars, the expense, probably 25 cents, to be borne individually.

On, or before June 15, each veteran registered will receive from his agent an order card for his transportation on the nearest railroad ticket office to his place of abode, and a credential card to be carefully kept on his person during the entire trip.

This order card will be exchanged by the ticket agent for a round trip ticket to Gettysburg and return and from points on the line to be traversed by the special train will be issued over the most available routes to join the special, although the said tickets will be good on any regular trains over the same route, and on which any veteran can secure for himself. If he adds his sleeping car accommodations to New York.

The tickets will be good for fifteen days, and on the return stopovers will be allowed in Philadelphia and in New York.

Personal drinking cups should be carried, and lunch baskets sufficient

to last until Sunday p. m., when the first government rations will be issued at the camp.

In order that the railroads may comply with certain interstate commerce requirements, registration should be practically completed May 22.

Any veterans receiving an order card for transportation, finding for some reason that he will be unable to go on the trip, should return the card to the agent, said official, and the state of New Hampshire trusting to his honor as a soldier or a sailor to do so at once.

NOVEL TRAINING FOR REPORTERS

Not long ago the New York Times, a newspaper which prides itself on its accuracy, printed this story:

"While at factory fire, dynamo explosion causes men and women workers to rush for safety."

The first paragraph graphically described how several men and women hurriedly at work around sewing machines were startled when the dynamo of the machine exploded.

Now a dynamo is just as likely to explode as a prayer book. The machine, moreover in question was doubtless an electric motor, not a dynamo, the old fashioned out of date name for a generator. What actually caused the panic probably was that an electric motor flashed over, shot out sparks, when overloaded and set fire to some inflammable material. Every reader with even rudimentary knowledge of electricity must have smiled when he saw that dynamo explosion.

The plain truth is that although electricity is rapidly revolutionizing not only modern industries but homes as well, the average man is still woefully ignorant of the nature of the power and apparatus which are doing so much to make his life more convenient and comfortable. For example, the presses and type setting machines of the New York Times are operated by motors, but the belated knowledge of its reporters and copy readers has not yet caught up with its mechanical equipment.

Errors of this sort are exactly what the Columbia University's new school of Journalism, endowed by the late Joseph Pulitzer, is attempting to prevent by providing one of the most interesting courses in the school's curriculum. This is nothing less than a course in science, inorganic and organic, designed to give students the knowledge that will enable them to ask intelligent questions and write with accuracy on scientific subjects. The announcement of this course was greeted with considerable skepticism but the results of the first years work have proved not only the need of such training, but also the entire feasibility of giving such instruction along lines that are practical from the standpoint of newspaper work.

"I read the examination paper and a number of the essays submitted through the course, said Dr. Talbot Williams, Director of the School of Journalism, recently in discussing this feature of the work. "At all points they possessed the newspaper quality. They were written from the point of human interest discovered by the students in the most unorthodox relations. One student, for instance, found a new way on which to hang his essay or cartoon in the theft of

Tinker Declares He has a Real Pitching Find in Indian Johnson

JOHNSON
PHOTO BY AMERICAN PRESS ASSOCIATION

Cincinnati, May 13.—Joe Tinker, the manager of the Cincinnati Reds, thinks that he has a real Indian ball player in his new pitcher, Chief Johnson. "It looks to me says Joe, 'as if Johnson was a better Indian than those from a large ball standpoint. From what the big right hander has shown to date I'll be willing to back a bet on his chance of pitching in the big league. The chief has lots of smother, a good curve ball and control in fact he has everything that a big league hurler needs. Yes we got Johnson from St. Joseph after the Chicago White Sox had turned him back. Callahan took Johnson along

\$25,000 worth of diamonds in a package no bigger than a pill box, and passed from this instance through the multifarious uses of this element. The human interest had not interfered with the criminal accuracy of statement. To secure from a young man in training for the work of a journalist on one side a perception of the relation of science to human life and on the other accuracy of statement as to the facts in abstract science is a portion of the whole round of knowledge most easily and most frequently mis-stated in the columns of the daily newspaper is to accomplish at the threshold of a student's training in the School of Journalism, the object for which Mr. Joseph Pulitzer provided its magnificent endowment. A large part of newspaper work today consists in writing about various fields of chemistry and physics, particularly electricity, and the promotion and publicity of large corporations has brought in to existence a number of well paid positions occupied by men usually with experience as journalists whose work too often shows how useful to them would have been the training offered in this course."

The work which the school of Journalism is doing along these lines is of the greatest interest to the large electrical manufacturing and public service companies which in recent years have devoted an interesting amount of attention to the education of the general public in regard to electricity and electrical apparatus.

Dr. Schneider Shanks Wheeler, President of the Crocker-Wheeler Co., who has been much interested in this campaign of education, believes that such training as the School of Journalism promises to give them newspaper men of the future will prove of the greatest possible value through its revelation on the general public in their reading.

"The School's work should prove very useful," said Dr. Wheeler. "The ludicrous statements in regard to electricity and electrical apparatus seen daily in their newspapers have undoubtedly much to do with the hazy and third hand general public's use of things electrical. If the Columbia School of Journalism succeeds in training reporters to write intelligently and correctly about electrical apparatus and the many other marvelous inventions of modern sci-

ence, much practical good will be accomplished. All modern life and industry have been revolutionized by the inventions of the past century. Unless use of these inventions cannot be enjoyed until the world feels at home with the apparatus. All civilized nations are still in the course of readjusting themselves to the changed conditions of life brought about by the inventions of modern science. It seems evident that the more we increase general public knowledge of the scientific basis of these great economic changes, the more rapid and orderly this readjustment will be."

HOUSE FOR SALE

Sixteen room house at 182 Market street; steam heat, electric lights, hot and cold water; large henneries. House was erected in 1763 by John Moffat. Inquire at No. 15 State street.

WARMER WEATHER COMING

About Normal Conditions Predicted; No Precipitation in the East.

Washington, May 12.—Unseasonably high temperatures are not expected to prevail during the coming week over any portion of the country, according to the Weekly Weather Bulletin. "Temperatures will rise on Monday, however," the Bulletin said, "over the eastern half of the country, and also on Tuesday from the lake region and Ohio valley eastward, but probably to only about normal conditions. No precipitation of consequence is indicated over the eastern portion of the country."

CLAIMS THE PRIVILEGE OF CHRISTENING THE ERICSSON

To Miss Julia Goodwin of Kansas City, who says she is the only living woman lineal descendant of the father of John Ericsson, the inventor, may fall the honor of christening the new torpedo boat Ericsson. Last night Miss Goodwin sent to the navy department credentials showing her relationship to the man who built monitors at the time of the Civil war, and who probably originated more battleship devices than any other person. Miss Goodwin formerly lived in Brooklyn, N. Y.

A GOOD PLEDGE FOR ANY BOY

New York, May 12.—A novel pledge embodying a few simple principles of hygiene and clean living, has been promulgated by Dr. C. Ward Cramp-ton, director of physical training public schools for the 10,000 boys who will participate in the Public Schools Athletic league demonstration in Central Park June 6.

If carried out by even a fair portion of the 10,000 competitors, there is likely to be an instant falling off in the receipts of cheap candy shops, "penny bakeries" and soda fountains here is the pledge.

Go to bed at 8 o'clock after a thorough wash and cold splash, teeth well scrubbed, clothes and books ready for the morning.

Bedroom windows open top and bottom.

Rise at 7 o'clock go through two-minute hygienic drill, another bath and teeth-cleaning.

Coffee or tea, but not at all meals. Drink milk slowly.

Chew all foods to a pulp.

No smoking.

PRIZE SPEAKING AT STATE COLLEGE.

Intercollegiate Contest a Big Success
Great interest and enjoyment was manifested by an audience which packed the auditorium at the New Hampshire State College to hear the annual Intercollegiate Prize Speaking Contest.

The contest is conducted by the Alumni Association of the college, which offers three prizes, one of \$10, in gold, another of \$10, and the third of \$5.00, for the best ten minute speech. The English Department of the college has supervision of the contest.

The judges were Prof. Richard Whoriskey, of the State College, Prof. Clyde Swan, of the Amesbury high school and Mr. George T. Hughes of Dover.

Sixteen preparatory schools were entered with a total of thirty-eight contestants. Preliminary trials narrowed these down to six boys and four girls, who competed in the finals. The first prize was awarded unanimously by the judges to John J. Haggerty, of St. Joan's high school, Worcester. Mr. Haggerty's selection was "The Death Penalty," by Victor Hugo. The second prize was won by Claude La Belle, of the Concord high school, and the third by Miss Mills Caverly, of Tilton Seminary.

Both the college orchestra and the college Glee Club furnished music for the occasion. The Glee Club sang for the first time a new base ball song, written by Prof. Richards, of the Eng. Dep. and entitled "Let 'er Out for Old New Hampshire."

The list of contestants was as follows:

Jeanette Corran Allen, Pembroke Academy; Doris Lillian Hagdon, Sanborn Seminary; Arthur Purber Brown, Southern Seminary; Lawrence Brown, Austin-Cate Academy; Belle D. Carlin, Goffstown high school; Mills Caverly, Tilton Seminary; David Crockett, Arlington high school; Harold Allen Damon, Southern Seminary; Olive Garland, Austin-Cate academy; George M. Gethro, Tuck high school; Bertha Florence Dearborn, Robinson Seminary; Helen Guild, Pinkertown academy; John J. Haggerty, St. John's high school; Fred Hall, Austin-Cate academy; Marguerite Harris, Manchester high school; Gordon Presian Hart, Goffstown high school; Rein Melvian Hazelton, Robinson Seminary; P. Dorothy Hatch, Robinson Seminary; Cornelius Kelleher, Newburyport high school; William Kiffin, Arlington high school; Claude A. LaBelle, Concord high school; Brenner Lunt, Newburyport high school; James A. McCarthy, St. John's high school; Edward N. Mitchell, Medford high school; Violet Nickerson, Austin-Cate academy; Doris Lenora Nye, Southern Seminary; Elizabeth A. O'Leary, Robinson Seminary; Elsie Corran Southern Seminary; Kelsey Low Smith, Pembroke academy; Mildred U. Smith, Colby Academy; Samuel Stratton, Newburyport high school; Hebra K. Thompson, Tilton Seminary; Grace Tilton, Austin-Cate Academy; Mildred Waldron, Austin-Cate academy; Norman Francis Whitson, Southern Seminary; Fina G. White, Concord high school; Marlan Elizabeth Woodman, Southern Seminary; Henry R. Works, Littleton high school.

Cor. Green and Vaughan Streets, PortsmouthANNUAL EXHIBITION
OF SCHOOL WORK

Being Held at High School Hall--
Excellent Work Shown of All
Grades -- Farragut Schools Hold
Opening Day.

The annual exhibition of the work of the public schools, from the kindergarten to the high, was opened at the high school on Monday afternoon and it is an exhibition that every parent, and in fact everybody who has any interest in the schools should see. The exhibition is open Tuesday and Wednesday both afternoon and evening.

The exhibition is in the large Assembly hall and the opening exercises Monday afternoon was attended by about 800 people. The exhibition is of the different grades of the schools, all work of the same grades being classified, and they are attractively shown on panels, made especially for this exhibition by the manual training class of the high school under instructor Swain. It contains samples of the work of every scholar in the schools, and some of it is exceptionally fine.

The samples of the work of the kindergartens is remarkable in itself.

is shown in the mechanical drawing room, the sewing exhibition is also in a room adjoining. The work of the seventh grades in the grammar school through the two grades of the high school are shown on a room on the same floor, and it is well worth a visit. Here are the things built by the scholars, tables and other cabinet work which would be a credit to journeymen carpenters.

While the exhibition contains the work of all the schools, the different days are given over to the three districts. The Farragut opened it on Monday, the Haven today and the Whipple close it Wednesday. On these days the school teachers from these districts are in charge.

Monday the Farragut district opened the exercises with a very attractive program by the pupils of the Farragut school, under the direction of Miss Midham.

The exercises were in the form of a May festival and it included a May pole dance, folk dancing, singing etc.

The program opened with music by the school, and the opening address by the Hon. Arthur Quinn. Then to the blast of the bugle the May Queen, Miss Margaret Peavey, was escorted in by the scholars of the seventh grade, with March and song. The boys of grade five and six marched in and crowned the Queen.

A folk dance by the girls of grade VII followed.

The brownies from grade second in verse and folk next appeared and in their frolic they were delightfully natural.

A story teller in the person of Miss Florine Entwistle, told in a very interesting manner the story of the toys.

A very clever exhibition of gymnastics followed by the grade four children.

The May pole dance and braiding was very prettily done by the girls of grade six. The little tots of grade one next appeared in games.

Song "Spirit of May" was well sung by grade three.

The exercises closed with an exhibition of folk dancing by the girls of grade five and a brief speech by the Queen thanking everybody for their kind attention.

The children then filed out and dispersed to their homes and the guests made an inspection of the work. In the evening the school was opened at 8.30.

Haven School Day.

Today will be Haven school day and the Assembly hall will be open between 2.30 and 9.30.

The program begins at 2 with a Drama from Hinawatha by grade 6. 3.30 Violin solo. David Cohen, grade three.

7.30 Spelling match by grade six. Violin solo by David Cohen, grade three.

8.15 drama and music by grade seven.

HIGH RECORD IMPORTATIONS
OF MANUFACTURERS'
MATERIALS

Washington, D. C., May 11, 1913.—A statement given out by Secretary of Commerce William C. Redfield indicates that the quantities of manufacturers materials imported into the United States during the present fiscal year will greatly exceed the imports of last year and will exceed the mark of any previous year in the history of our country. If the figures for the nine months ended March 1912, be any criterion, of the ten important articles forming the bulk of the imports of such materials, cotton, wool, fibres, silk, tin, copper, rubber, hides and lumber, the imports will, with but two exceptions, exceed the former high record mark.

The quantity of raw cotton imported during the first nine months of the present fiscal year was about 100 million pounds as compared with 66 million pounds in the corresponding months of last year. 363 million pounds of wool were received as against 126 millions last year, 218 thousand tons of fibres, against 231

NEGOTIATIONS BETWEEN JAPAN
AND U. S. NOT ALARMING

Washington, May 12.—President Wilson believes negotiations between Japan and the United States over the alien land legislation in California are not in an alarming stage, but that the interchange of views thus far has been along frank and friendly lines, calculated to remove the appearance against Japanese subjects.

The President, discussing the subject informally today, took the position that the Webb bill would not violate the treaty between Japan and the United States. He intimated that Japan's protest was not founded upon a claim that the treaty would be broken in any way, but upon the feeling that there was an effort to discriminate against Japanese on the ground of their alleged ineligibility to citizenship.

The President revealed that the question of neutralization had not yet entered the discussion with the Japanese Ambassador, but that of course underlying the bill, it was realized that Federal courts had not finally passed upon the question of eligibility.

It was upon the basis that Japanese were not accorded the privileges of citizenship that the appearance of discrimination written in the bill had arisen, and it was intimated at the White House that for the present the hope was that the legislation in California either would be vetoed by Gov. Johnson or delayed by a referendum to permit smoothing over some features of the situation.

thousand; 20 million pounds of raw silk, against 16 million; 91 million pounds of pig tin against 82 million; 284 million pounds of copper pigs bars etc., against 296 million; 87 million pounds of crude India rubber, against 81 million; 453 million pounds of hides and skins against 374 million; 215 thousand M feet of boards, planks, and deals, and 645 thousand M feet; and 48 million pounds of leaf tobacco, against 37 million pounds. The only cases in which the imports for the corresponding period of any previous year exceeds the imports for the nine months ended March of this year were when the imports of hides and skins amounted to 450 million pounds in 1910, as against 453 million pounds for this year, and when in 1896, 1897, 1905, 1909 and 1910 the imports of wool slightly exceeded the imports of the current year.

CONDITION REMAINS THE SAME

There was no break in the Carpenters Union and contractors remaining firm in their attitude. The Union gained some men who were employed by private firms, who during the day left their work and joined the strikers, but there was no loss by the contractors in the men who first refused to go out. They stuck to the contractors and worked the entire day.

The Master Builders state that there has not been any concession on the part of the builders, and claim that the Union's announcement that three of the contractors have given in does not apply to them. One is a naval hospital contractor, who has been paying the same wage all along, and the other two are members of the carpenters and joiners Union.

In no case was work suspended on Monday, although all of the contractors either worked themselves or with greatly reduced crews.

The Union men stated last evening that they are well satisfied with conditions and that all work has been practically stopped. They are confident that they will win out in the end, and claim that they are well organized and are prepared for a long fight if necessary.

President Wilson endeavored to make it plain that the greatest frankness had prevailed between the two Governments, even to the abandonment of many diplomatic formalities. The conferences thus far between Sec. Bryan or President Wilson and the Japanese Ambassador were described as being those of "one gentleman to another."

Intimations that the Japanese protest itself was couched neither in vigorous nor aggressive language, but was formed and friendly in character, came from the President himself, during his talk today, and it was pointed out that the phrase, "a very earnest protest," employed by Sec. Bryan in his message to Gov. Johnson, was the description of the note which the American Government had entertained rather than the emphasis of the Japanese ambassador.

The President was disposed to talk freely of the subject, and appeared confident that a satisfactory adjustment would be accomplished.

Representative Kahn of California conferred with Sec. Bryan today and intimated he was seeking information relative to laws in other countries barring the Japanese and other aliens from owning land.

"There is no doubt about California's right to enact the alien land bill," said Representative Kahn, "but I have nothing to say about the expediency of placing such a law on the statute books at this time."

STOLEN AUTOMOBILE
A PHONY ONE

The police received word Saturday afternoon about 2 o'clock that an automobile had been stolen in Portsmouth and was headed this way, being in the possession of two young men. The car was said to be owned by a Greek fruit dealer in that city.

Officer Ayers was stationed at the Bridge road in company with a local Greek merchant who could identify the machine. They had been there but a few minutes when the much wanted car came in sight. The driver was stopped and asked to accompany the officer to the station for an explanation.

It developed that the story given was not a true one. The machine was purchased in Boston from E. W. Collins, who is a dealer in second hand cars by the Portsmouth man and a deposit of \$20 made. The car was sent over the road in charge of a driver from the garage with the understanding that the Greek was to pay the balance when the car landed in Portsmouth. The Greek changed his mind and refused to give the amount agreed upon.

The young man telephoned to Boston and Mr. Collins came to Portsmouth. He at once interviewed a lawyer and was instructed to take the car back which he did. After he left Portsmouth the Greek telephoned to a Newburyport party that the car was stolen from him. Mr. Collins gave the police a satisfactory explanation and he was allowed to proceed to Boston. He stated that a warrant will be asked for the Portsmouth dealer as soon as he arrives. Newburyport News.

Portsmouth, N. H., Tuesday, May 13, 1913.

Maine Avenue.

There is ample precedent for changing the name of Maine avenue in Washington, and if Representative Guernsey persists he may be able to have the Pine Tree state represented by a more pretentious thoroughfare. Maine avenue is, as the congressman complains, a small street in an obscure part of town, lying as it does back of the site of the historic old 6th street depot; but the development of Washington may yet elevate it to a position of proud importance, for the section which it so briefly traverses, while drab enough now, is in that locality south of Pennsylvania avenue which eventually will be purchased by the government, added to the Mall, and adorned by a group of notable public buildings. In that event, if the street should be preserved, as it probably would be, "Maine avenue" would come into its own. Some of the largest of states are "honored" at the capital by the meanness of streets. Many are not represented on the highway maps. Some of the smaller states, on the other hand, have given their names to large and important boulevards such as Connecticut and Rhode Island avenues, both of which are in the heart of the fashionable northwest. In addition to these there are Massachusetts, New Hampshire and Vermont avenues, all of the first class. Maine, alone of the New England states, is commemorated at the capital by no street worthy of her, and Mr. Guernsey is entitled to his kick. Names of streets are frequently changed by act of Congress, as was the case only recently when 16th street was rebaptized under the high sounding and absurd designation "Avenue of the Presidents."—Boston Transcript.

The Up-to-Date Pledge.

The care-free schoolboy and the timid schoolgirl of a past generation used in great numbers to "take the pledge" not to drink, as urged by their mentors. In those days the "horrible example" was displayed to the wide-eyed youth of the land by the raging temperance lecturer. Is anybody pressed to take the pledge nowadays, except the drunkard? The young man is now counseled to keep his teeth brushed, to refrain from smoking cigarettes, to cultivate the art of cleanliness of body and mind generally. There is not so much concern lest he will become a drunkard if he neglects to make a solemn oath to let rum alone while still of such tender age as to make it improbable that it would occur to him to "drink." If anything he must be cautioned against the danger of overindulgence in soda water, said to carry the menace of chemical fruit juices, benzoate and marble dust.

Ten thousand pupils in the elementary schools of New York have just taken this up-to-date pledge: To go to bed early, to sleep with the window open, to wash without delaying for the visible need, to masticate thoroughly, to shun tobacco. The sanitarian, the hygienist and the physical culturist are our modern mentors.—Providence Journal.

His Opinion of a Mean Man.

An editor in a western town says that if there is anything on earth that gives him a longing for eternal rest and deep, damp solitude it is a man who comes to a town or country, builds up a big paying business, grows rich and then squals down on the gold like a hen on a door knob and is too stingy even to let the gravel grind in his own gizzard. A real, genuine 18-karat, slinky, selfish man can't be honest, and if he ever gets to heaven and has wings, he folds them up and walks for fear he will ruffle a plume or lose a tail feather. The kind of men who build up a town and county and enjoy life and make the best citizens, are the enterprising, energetic and liberal men, who believe in living and letting others live; and who do not, when they get a dollar, squeeze it till the goddess of Liberty feels like she had a corset on. Such squeezing is what causes such hard times and stops the circulation of the American eagle. If it were not for our broad-gauged, enterprising men it would be impossible to build up a prosperous city.

Trade in Portsmouth.

Our neighboring city of Newburyport is holding her third annual merchants' week and special electric, which are paid for by the Newburyport Merchants' Association, are being run from Amesbury, Hampton and other nearby towns. Persons who avail themselves of a free ride to the Massachusetts city will no doubt make purchases that will more than offset the cost of their transportation. Newburyport merchants have found this method a business getter and would it not be a good plan for our Board of Trade to adopt similar tactics? Portsmouth has a good outlying territory and without doubt many persons would take advantage of the free car service. Why not try it?

The Drinking Cup in New Hampshire.

The use of the common drinking cup is to be further restricted in New Hampshire after July 1, under an order issued

Hundredth Anniversary of Wagner's Birth Is to Be Celebrated May 22.

The one hundredth anniversary of the birth of Richard Wagner, famous German composer, will be celebrated May 22 not only in Germany, but throughout the United States and other countries where Wagner's music is loved. The celebration will take various forms, from elaborate pageants to Wagnerian concerts. German orchestral and singing societies will play an important part in the celebrations in this country. Wagner was born in Leipzig May 22, 1813, and died in 1883. He was the originator of the music drama and is recognized as one of the greatest of musical geniuses. In this illustration are a portrait of Wagner and a scene in his home.

by the state board of health a few days ago. Heretofore the common drinking cup has been banished from railroad trains, railroad stations, schools and state institutions, and the new order prohibits the use of common drinking cups in public parks, streets, hotels, theatres, public halls, and any public building or public place. This regulation does not apply to the use of drinking cups or glasses that are thoroughly cleansed in boiling water after each individual use.—Laconia Democrat.

As Viewed in Boston.

Yes, the New Hampshire Legislature is in session, but even New Hampshire is disgusted.—Boston Traveler.
It would appear that there is some basis for the above. The legislature is a joke to all three parties.

TEACHERS AND THE COST OF LIVING.

Most of the teachers in the United States have in effect had their salaries reduced since 1907. Despite an apparent increase in money received, the high cost of living has cut into their salaries just as definitely as if a school board had added them. A teaching position which paid \$600 salary in 1907 is paying in purchasing power the equivalent of about \$416 today. If measured by 1907 prices, the teacher on the \$1000 salary gets no more for his money today than he would have received fifteen years ago for \$692. This is what the high cost of living has done to teachers and others on a fixed salary schedule, according to a report on teachers' salaries and cost of living distributed by the United States Bureau of Education.

Dr. Robert C. Brooks, executive secretary for the N. E. A. committee, which prepared the report, shows by means of labor figures that while salaries in 1911 were 41.1 per cent. higher than in 1907, that retail prices had increased 50.2 per cent. in the same period; while in June, 1912, retail food prices were 61.7 per cent. higher than in 1909. With these figures as a basis he analyzes teachers' salaries in five cities in different parts of the United States and demonstrates the plight of the teachers in the problem of increased cost of living.

According to the Brooks report, teachers do not receive enough salary even in the cities to save money to carry adequate life insurance or to proceed with further professional training. Out of the 1600 teachers in, estimated, only 13 were found who possessed property over \$15,000, and practically every one of these thirteen owed their good fortune to sources other than their salaries as teachers. Nearly all of the men teachers carried life insurance, but few of them to a sufficient amount. Only four out of 138 married teachers would, if they were to die now, leave in insurance or any other property as much as ten times their annual salary—the lowest sum that might be expected to provide for the family.

How the high cost of living affects can play, proving that it is always

particularly the teacher who seeks to marry and have a home is strikingly demonstrated. In Denver, a city of relatively high salaries, 14 married women with no others dependent upon them had an average salary of \$1212 to meet their own needs exclusively; 16 unmarried women with others dependent upon them had an average salary of \$801 to spend on each adult person in the family including themselves; but the married men teachers had an average salary of only \$413 for the equivalent of each adult person including themselves.

Teachers spend more than working-men for some things, though their pay is about the same. Rent and clothing are bigger items in the teacher's budget than in the laborer's, indicating more exacting community demands. Teachers also spend relatively more than working-men for life insurance, religious purposes, charity, amusement, vacations, and care of health. They spend less for children's clothing—having fewer children. Not all of them economize in this way, however. "I believe," writes a Denver principal, "that teachers should attend concerts and good plays and take trips. So does my wife, but my salary necessitates a choice between these things and raising a family. We choose the latter."

Many other significant side lights on the high cost of living, particularly as it affects teachers, are brought out in the report on "Teachers' Salaries and Cost of Living." The commissioner of education at Washington has a limited number of copies of the report for free distribution.

BLINDNESS OF VIRTUE

All New England is talking about the tremendous success of "The Blindness of Virtue," which will start upon the fourth week of the engagement at the Park theatre, Boston next Monday evening. This year has been one of conspicuous triumphs at the Park for the earlier part of the year was devoted to the long engagement of "Maggie Pepper" with Rose Stahl as star, "The Woman" and "Officer 868." Now comes an English masterpiece to contrast with these American

the policy of the Park to give its patrons the best in the dramatic field no matter from what country it might come. No play that has crossed the Atlantic in years has pleased Bostonians so greatly as "The Blindness of Virtue" and people have gone to see it again and again, so thoroughly have they been pleased with this fascinating picture of country life in Great Britain as drawn by Cosmo Hamilton, the brilliant novelist and dramatist of London. He has taken a vital problem of the day, one that is of as great importance in America as it is in London, and has treated it in a manner that fascinates young and old, rich and poor. It is a play that appeals to the boys and girls in the gallery as well as to the people in the orchestra stalls, and the best demonstration of the strong hold that it has maintained upon the universal public is the spontaneous applause, especially after the great crucial scene in the third act, where the actors are recalled again and again. To give America the best possible presentation of this powerful play, William Morris imported the whole company from London, and the players have been made to feel as perfectly at home in Boston as they were in Chicago, where "The Blindness of Virtue" just closed an engagement of sixteen weeks of packed houses before coming to Boston. A. Holmes Gore is thoroughly admirable as the English Vicar, and others who share the honor are Paul Haesel, John May, Dorothy Randall, Poile Emery, Florence Le Clerq, Lois Emory and Madge Murray. With such a cast it is easy to understand why "The Blindness of Virtue" has made so conspicuous a success in Boston during the past three weeks, and why it promises to continue without loss of favor for some time to come.

RYE NEWS

Miss Carrie Mace, Miss Mary and Miss Pauline Davidson passed the week-end at Lawrence, Mass., returning home on Foss Beach road Sunday evening.

Several members of the Country Club spent the week-end at their club house at Rugged Neck.

Miss Leona Libby of Portsmouth played chess Sunday at her home on Washington avenue.

Mr. William E. Carver, who has been passing the winter at Rutland, Vt., has arrived at Rye Beach to prepare the Farragut house for the coming season.

Mr. and Mrs. Freeman R. Garrett of Portsmouth spent Sunday with their son and wife, Mr. and Mrs. Wallace H. Garrett.

The prayer meetings will be held in the vestry of the Congregational and the Christian church tonight.

Many young people here attended the dance at North Hampton on Saturday evening and reported an enjoyable time.

Messrs. Hübner, Cook, Shaw and Humphreys of the Lyric company of Portsmouth, will sing at Rye town hall next Wednesday evening at the entertainment and food sale of the Congregational church.

The Ladies' Aid of the Congregational church will conduct a food sale and entertainment on Wednesday evening at the town hall at 8 o'clock.

Miss Lena Foss, who has been visiting in Boston and vicinity, has returned home.

Mrs. Alva R. H. Foss, who has been visiting her mother, Mrs. Hoyt of Newington, has returned to her home at Foss Beach accompanied by her mother, who will visit her for two weeks.

Tonight the local Grange will go to Stratham. The large auto truck of the Shum Pierce company will convey the party to Stratham town hall.

WILL OPEN SANITORIUM.

Calgary, Alberta, May 13.—Dr. Friedrich Franz Freidmann, whose Black turtle sanatorium, for the cure of consumption is at present engrossing the attention of the medical world, will probably open a sanatorium at Banff, a few miles west of Calgary, according to Dr. Henry Carpenter, a friend and assistant of the famous German physician.

According to Dr. Carpenter, Dr. Freidmann will build two large sanatoriums in Canada. One of these will be placed in Montreal and the other at Banff, if present tentative plans are carried to completion. After looking over all the available sites in western Canada, Banff it appears appeals to the Doctor as the most suited for an institution where his cure could be carried on with the greatest good. Besides possessing the natural advantages of location and inspiring scenery, the hot sulphur baths at Banff, are an additional reason why the place was selected for the location of the new sanatorium.

A new company, entirely separate from the one recently organized in the United States, will be formed in Canada, to build the two sanatoriums and carry on the cure in the Dominion. It is expected that the plans of the Canadian Freidmann Company will be announced in the near future and the work on the two sanatoriums commenced as soon as possible.

TELEGRAPHERS' CONVENTION AT BALTIMORE

Baltimore, Md., May 12.—Upward of 700 delegates to the biennial convention of the Order of Railway Telegraphers, representing a membership of 40,000 in the United States, Canada and Mexico, assembled here today for a session which is expected to continue for a week.

The parcel post is expected to furnish an important subject for deliberation by the delegates on account of the fact that an army of rural operators hold the dual position of telegrapher and mail agent.

BIG INCREASE IN AUTOS IN TEXAS

State Stands Third in Increased Registration.

New Automobile Legislation Is Indicated. Dallas Passes a New Warning Signal Ordinance.

That ten thousand automobiles were registered in Texas last year and that the increased use of the automobile in that state is so great as to necessitate new legislation are points submitted in support of a bill about to be presented to the state legislature.

The increase in registration over 1911 is 65 per cent, which gives Texas third rank among the states in point of increased registration. West Virginia and Maine leading with 148 per cent. and 147 per cent. respectively.

The new bill will call for state registration. Registration is now by counties with the result that reports are made scattering and some so late that no definite knowledge can be obtained at any time of the actual number of cars in use.

The need of better legislation has also been felt by the larger cities where the increase in the number of automobiles has been much greater than in the country districts. Dallas, for instance, shows an increase of over 100 per cent. within a year.

Automobile accidents increased to such an extent in Dallas that the city council after an investigation passed a new warning signal ordinance as the most effective means of prevention. The ordinance provides for the use of an automobile warning signal "with an abrupt note, sufficiently loud to be heard under all conditions of traffic," and the measure further stipulates that it shall be unlawful to use such signals except when necessary to sound a warning of danger.

In enacting this ordinance Dallas followed the lead of Houston, Texas.

Measures to the same effect are also in force in Chicago, Cincinnati, Newark, Jersey City, Sioux City, St. Louis, Los Angeles, Seattle, San Diego, Memphis, Louisville, Atlanta, Denver, St. Paul, Philadelphia, Des Moines, Dubuque and Portland.

IN TEN ROUND BOUT.

Calgary, Alta., May 13.—Luther McCarthey will meet Arthur Pelkey of Calgary, in a ten round bout at Tommy Burns' Manchester arena, Monday afternoon, May 24. McCarthey has wired his acceptance of the terms of the match and together with his manager, Billy McCarthey and two sparring partners, is expected to arrive in Calgary shortly to begin training. It is said that McCarthey will receive \$5000 as his end of the purse.

Arthur Pelkey, McCarthey's opponent, first sprang into the sporting limelight when he was matched to box Tommy Burns at Calgary recently. Burns was awarded the decision at the end of six rounds of furious fighting during which the former heavyweight champion of the world did his best to score a knockout. Pelkey's showing was a surprise and Burns immediately matched him with Andy Morris of New England, which bout took place May 1, and was stopped at the end of the eighth round to prevent useless punishment being inflicted upon Morris. His showing in these two bouts decided Burns to match him with McCarthey.

Pelkey is a big man, six feet one inch in height, weighs when entering the ring 108 pounds and is very strong. He is extremely clever although lacking experience. Speaking from experience, Burns declares that McCarthey will meet the surprise of his life in Pelkey and if he wins it must be by the knockout route. Pelkey speaking of his chances in the coming bout is confident of winning.

ARE MEMBERS OF UNION

Editor Herald:—In a news article published in The Chronicle of yesterday you say that three contractors have acceded to the demands of the Union. The first are the contractors at the new hospital. They are paying the same rate for the same hours as they have been paying along. The other two men I am informed are members of the Carpenters and Joiners Union.

The funeral of J. E. Witham occurred on Monday afternoon at the Free Baptist church. Interment took place in the church cemetery.

The Ladies Aid Society of the Baptist church will meet Wednesday afternoon at the home of Mrs. Frank Lawry.

Mrs. Annie Mathews of Somersworth, N. H., has been the guest of Mr. and Mrs. Frank Clarkson.

Miss Bertha Seawards of North Kittery was the guest of her sister, Mrs. Henry Blake on Sunday.

The address given by Miss Davison before the local Union Monday afternoon at the home of Mrs. Marcia Fiske called out all the members and also a large audience of those

Interested in the cause of temperance. Among those present were Rev. Mrs. Coffin, pastor of the First Christian church, and Rev. W. W. Churchill of the Free Baptist church. Miss Davison is a very pleasing speaker, making her explanations of the different topics so clear that even a child could understand them. Those of scientific and medical temperance were very instructive and interesting, and gave much food for thought and action in the work of the W. C. T. U. Her suggestion of changing the Medal Contest work to Prize Essay work in the higher grades of our schools was well received and could be made a new incentive to children who formerly entered into the medal contests. Following the speaker, remarks were made by Mrs. Coffin, and Mr. Churchill. Vocal and instrumental music was interspersed. A solo by Mrs. Daniel Fiske being especially pleasing. The next meeting of the Union will be held at the home of Mrs. William Anderson on Thursday, May 22.

ON WAY EAST IN STEAM YACHT

Dutch Ervin, sporting editor of the Standard, St. John, N. B., and Leo Gallagher of St. John, arrived here Monday evening on the steam yacht Elizabeth enroute from Boston to St. John. The yacht was built seven years ago for Julia Arthur, the noted actress, and was later owned by Roger Upton, commodore of the Boston yacht club. She is now owned by S. P. Gerow, a St. John merchant. The yachtmen will visit Portland, Rockland, Bar Harbor, and Eastport on their trip to St. John.

PROPOSAL

Sealed proposals will be received until 8 p. m., May 14, 1913, at the office of the Board of Public Works, for the construction of granite sidewalks. Specifications may be had at the office at City Hall.

Board of Public Works, by W. W. LARRETT, Supt.

Feel languid, weak, run down? Headache? Stomach "off"? A good remedy is Burdock Blood Purifiers. Ask your druggist. Price \$1.00.

KITTERY

Breezy Items From the Village Across the River.

Mr. and Mrs. Edward Mayo of Rice avenue were guests of his sister in Somersworth last week. Mr. Mayo resumed duties on the navy yard on Monday.

Constitution Lodge, No. 88, Knights of Pythias, meets this evening at Odd Fellows' hall after which there will be a drill of the first rank team.

Mr. and Mrs. Frank Foss of Auburn, Me., are visiting this week Mr. and Mrs. Clinton Tucker of Cottle's hill.

Rev. J. James Merry, superintendent of schools, spent Monday in visiting the four schools in the Wentworth building.

Regular mid-week prayer meetings at both churches this evening.

Mrs. Charles Cutter of Mattbury, N. H., passed Monday with her father, George W. Damon.

Mr. Rudolph Huber has moved his family from Pierson street to Lynn, Mass., where he is employed.

Miss Mabel Pollock, teacher at the Wentworth Intermediate school, is ill, and Mrs. J. James Merry is substituting for her.

Tripp Academy ball team went to Portsmouth Monday and played the Maplewood team, losing by the score of 19 to 3. The academy team keenly felt the absence of their star player, Morrow, who was unable to play owing to an injury to his arm.

Arrangements for the Memorial Day parade and program were made last evening by the committee which met at the home of Adj. J. H. Sweet.

Mrs. James Berry of the Intervene is reported as being very ill. She is being cared for by Mrs. Anna Stone of Waltham, Mass.

Miss Edna Smith of Kittery Depot has returned from a visit to relatives in New York.

Raymond Cole of Elliot, a student at Tripp Academy, who has been ill the past week, resumed his studies on Monday.

The Quinque Club is arranging for a May ball on Friday evening, May 23. W. G. Moulton would inform his friends and patrons in Kittery that he will be around as usual with plants, as soon as the weather conditions permit.

Miss Annie E. Hanson of Dover was in town on Sunday, the guest of relatives.

A dress rehearsal at the Second Christian church Tuesday evening at 8 o'clock, of those who are to take part in the Old Folks' concert. It is necessary for each and all to be there as final arrangements will be made, and it will be the last rehearsal before its rendition on Thursday evening.

Mrs. Hiram Rathbun of East Mansfield, Mass., is visiting her brother, Arthur Keene of Rogers road.

Master Robert Hodgdon of Walker street has returned from a visit with friends in Dover.

Mr. Richard Lander begs to announce yet he will bring to ye Towne on ye 15th of Maye next coming his company of Singers for to give a Greater Concerte of ye Tunes and Hymns of ye Olden Tyme, in Soloes, Duetties, Quartettes, Riquos, and Full Chorus, with accompaniment on ye Fiddle and Harpsichord. All Goodie Lovers of Music are invited to be Present. A small Fee of Admittance (namely, One and Sixpence, Continental Monie, wher is 25 cents Current Coin of the Realm) will be Refused at ye Doore to defraude Expenses. Ye said Concerte will be given at ye Christian Baptist Meeting House and ye Singing will begin at 8 of ye Clocke.

GREAT MEET AT STATE COLLEGE.

Intercollegiate Brings Out Big Crowd

The second annual intercollegiate meet of New Hampshire college was won easily by Boston English high school with 23 points. Tilton Seminary of Tilton, N. H., was second with 14 points and Concord high school third. Howe of Boston English was the star and big point winner of the meet annexing 15 of his teams 23 points. He won the 100 yd. dash, the 220 yd. dash and the shotput and in none of the events was he pushed to the limit although Smith of Newmarket forced him to extend himself a little in the 100.

In the pole vault, Reed of Manchester easily outclassed all of his opponents and won his event easily. In the mile run, Prell of Portland high quickly opened up a gap between him self and the rest of the runners and won by about fifty yards. Eastman of Concord high school, and Swings, Arlington, N. S., ran a great race in the two mile and the result was in doubt until the last lap when Eastman, by a pretty sprint, drew away from his opponent.

All of the performances were good considering the fact that there was a heavy wind blowing across the track which handicapped the contestants.

Trials of 100-yard dash, first heat—Won by Barry, English high; second, Barton, P. H. S.

Second heat—Won by Smith, Newmarket high school; second, Oberg, Worcester English high. Time, 19 4-5 seconds.

Third heat—Won by Mowe, English high; second, Foster, Newburyport high. Time, 19 2-5 seconds.

Fourth heat—Won by Litchfield, Newton high school; second, Herrick of Manchester high. Time 19 2-5 sec.

Fifth heat—Won by Stanley, New-ton high; second, Luby of Portland high. Time, 11 seconds.

Sixth heat—100-yard dash, first

heat—Won by Mowe, English high; second, Smith, Newmarket high. Time 10 1-5 second.

Second heat—Won by Foster, Newburyport high; second, Stanley, New-ton high school. Time, 10 2-5 s.

440-yard run, trials, first heat—Won by Williams, English high; second, Oberg, Worcester English high.

Second heat—Won by Raymond, Tilton seminary; second, Herrick, Manchester high. Time, 69s.

440-yard dash, finals—Won by Williams, English high; second, Raymond, Tilton seminary; third, Oberg, Worcester English high. Time 57 2-5s.

220-yard hurdles, trials, first heat—Won by Murray, Concord high; second, Cook, Dover high school. Time, 28 2-5 seconds.

Second heat—Won by Fischer, Tilton seminary; second, Oliver, Portland high; third, Murray, Concord high school. Time, 29 seconds.

Two-mile run—Won by Eastman, Concord high school; second, Zwinge, Arlington high; third, Miller, Newburyport high. Time, 19m. 41 3-5 s.

Second heat—Won by Howe, second, Ellison, Newton high. Time, 24 seconds.

Third heat—Won by Collett, Dover high; second, Jones, Newburyport high. Time, 24 2-5 seconds.

220-yard dash, finals—Won by Howe; second, Smith; third, Collett, Dover high school. Time 23 seconds.

880-yard run—Won by Nathan, New-ton high; second, Ryan, Tilton seminary; third, Brown, Medford high. Time, 2m. 15s.

Relay race—Won by English high. Pole vault—Won by Reed, Manchester high; second, R. H. Foster, Newburyport high; third, Gordon, Wakefield high. Height, 11 ft. 4 1-2 in.

Shot put—Won by Howe; second, Ignacio, English high; third, Dwyer, Medford high. Distance, 42 ft. 9 in.

Hammer throw—Won by Fischer, Tilton seminary; second, Peaslee, Tilton seminary; third, Rolfe, Concord high school. Distance 142 ft. 6 in.

High jump—Won by Evans, Nashua high; second, Berkie, Lawrence high; third, Schmidt, Worcester English high. Height, 5 ft. 6 in.

Running broad jump—Won by Atkinson, Newburyport high; second, McDonough; third, Collett, Dover high. Distance, 18 ft. 7 1-2 in.

Referee, G. B. Clark, B. A. A., clerk of course; Harold Taylor, U. of P.; Judges, Professor Whoriskey, Professor Rasmussen, P. C. Jones, Tod Duerle.

Timers, F. S. Kilburn, H. G. Holden, Professor Perley, Professor Hitchcock.

Pathe's Weekly No. 18

Giving you all the latest and important facts of the week. A very interesting weekly.

Sleuthing—Vitaphone

Second of Belinda series. Belinda plays detective. She falls in love with a policeman and stops a wedding. A very amusing film.

SPECIAL!

Wednesday and Thursday, May 14 and 15. (Three Reels)

Detective William J. Burns in "THE EXPOSURE OF THE LAND SWINDLERS." Supported by Miss Alice Joyce and Mr. Guy Coombs.

LOSS OF HER HAIR.

Concord Woman Wants \$10,000 for Work of X-Ray.

For the loss of her hair, due as she alleges to the X-ray process, Miss Catharine A. Roby of Concord has entered suits in the superior court of Suffolk county, Mass., against Dr. Gardner H. Osgood of West Roxbury.

Dr. George B. Rice of Boston and Brookline, and the Massachusetts Homeopathic hospital, in which damages are claimed in \$10,000 in each case.

The bills filed allege that Miss Roby went to Boston early in January to have a surgical operation performed on certain bones of the head, but previous to the operation went to the hospital, she says upon recommendation of Dr. Rice that an X-ray photo might be taken by Dr. Osgood, X-ray expert.

The plaintiff further alleges that by reason of the use of the X-ray, her hair, once long and silky, has fallen out to such an extent as to leave only a slight fringe over the forehead and about the sides of the head.

The three suits are brought by her attorneys for the purpose of fixing the question of responsibility and against whom the real action is to

RAILROAD NOTES

Conductor Arthur Clark, temporarily assigned to the run between Boston and Wolfboro is putting in much spare time with the hook and line on Lake Winnepesaukee with all kinds of luck as a fresh water fisherman. Old timers at Wolfboro and other places along the lake have retired to the rear since Clark began baiting the hooks.

A party of 65 Boston & Maine conductors from the Portland division will leave Boston on Thursday on a pleasure trip to California.

The Pullman company inaugurated a parlor car service for the season between Boston and Oquossoc, Me., and Boston and Kineo, Me., today via Boston & Maine and Maine Central roads.

The car service department of the Boston & Maine road is converting two 50 foot baggage cars into refrigerator milk cars for shipments from Rutland and Belows, Vt., to Charlestown sheds.

Work on the bridge at Bow Junction on the Portsmouth and Concord branch has been suspended by the recent order of the Boston & Maine.

In declining the offer of the Illinois Central employees to donate one or more day's pay to aid the company in making repairs rendered necessary by the tornado in Omaha and floods in the South, Vice President Park issued the following statement: In all my railroad experience in the ranks and as an officer I never have encountered so unselfish and loyal an offer. That those men should voluntarily tender their mite to assist their company is an evidence of such patriotic loyalty and self obnegation that I am inclined to the belief that it is unparalleled in railroad history.

The order of Railroad Telegraphers convenes in annual session at Baltimore today. The important subject under consideration this morning is the question for shorter hours and the institution of a campaign to increase the membership of the union.

Approximately 500 delegates to the biennial convention of the Order of Railroad Conductors and the Ladies Auxiliary of the order have reached Detroit to attend the sessions scheduled to begin this afternoon.

Candidates for election to the various offices to be filled have opened up headquarters and an active campaign is under way. St. Louis and San Francisco are in the race to obtain the next convention.

In addition to the transaction of business during the ten days' meeting an extensive program of entertainment has been arranged for delegates.

stand. The writs are returnable to the superior court of Suffolk county on the first Monday in June.

HELLO GIRLS

Organize Unions Everywhere Since Boston Trouble.

Nearly 50 unions of telephone operators have been formed or are now being organized in various sections of the country. Many of these are the result of recent threatened strike of the operators in Boston.

SHOE NEWS

N. H. BEANE & CO.,

PORTSMOUTH.

DOROTHY DODD

This shows No. 5008 in our Dorothy Dodd. Fine patent, coltskin, one of the new shapes that give the foot a dignified appearance (all Dorothy Dodds have a style peculiarly their own) and the quality that goes with shoes of the higher price. This season our selection of Dorothy Dodds is particularly pleasing and well worth the inspection of the woman of discriminating taste. All the popular leathers in a wide style range, priced from \$3.50 to \$5.00.

BOYS

"The Shoe That's Right!"

Sure enough we've got a boys shoe that right, real leather, same style as "fathers" and a wearer. It fits too and is sold at the right price, \$1.50 for the littler boys, \$2.00 for the bigger boys.

Be Wise---Advertise in the HERALD

Every woman you in particular

Owe it to yourself and family to give a few hours, at least, weekly, to an "inspection" trip of the Portsmouth Stores. Shop if you will, but all we ask is that you "inspect."

You'll enjoy it! We are positive of that fact, for never in any previous season have the merchants worked harder for your approval. The result: Portsmouth Stores are now fully equipped with stocks of such size and variety that you cannot fail to secure ANYTHING YOU WANT RIGHT HERE IN PORTSMOUTH.

Quality right, style the latest, and price shorn of all extra traveling expense, which you don't always think to "count in" when the luresome effects of a day's shopping trip are endured.

GET THE HABIT. Make frequent trips to the Portsmouth Stores. Just now the beauty of the window displays alone will well repay you for the coming. Distance is of no consequence even to the most outlying Suburbanite, for electric and train service to Portsmouth is such that you can come at almost any hour it suits your fancy.

We want to Prove to YOU that Portsmouth Merchants Have the Goods.

Your co-operation—an inspection of their stocks—cannot fail to win your appreciation, and such appreciation will stimulate them to further efforts in your behalf.

DECIDE NOW WHAT DAY YOU ARE GOING TO SHOP IN PORTSMOUTH.

WOULD LEGISLATE ALL POLICE OUT OF OFFICE

Police Commissioners' Bill Now in House is a Dangerous Bill--A Joker Attached.

The police commission bill, which is of more general interest, perhaps, to Portsmouth residents than any of the administration measures, and which, although its fact is not apparently generally understood, is more far-reaching than any of those pertaining to changes in the city charters or commissions of the bills thus far introduced this session, will come up for action in the house tomorrow.

The bill, although this point is not generally understood, to the casual reader of its provisions, legislates out of office every police official, from the chiefs to the patrolmen, in every city in the state, with the exception of Concord, and the town of Exeter.

This is provided for in section 4 of the bill, which was apparently inserted to reach some of those high in

authority in police circles and which reads as follows:

It shall be the duty of said police commissioners to appoint such police officers, constables and superior officers as they may in their judgment deem necessary, and to fix their compensation, provided, however, that nothing in this act shall be construed to authorize them to exceed the appropriation allowed by the city or town government for the police department.

This section has been generally construed by the citizens in general to mean that as has been the case in the past, the commissioners were given the power to appoint men to the force from time to time as they were needed.

As a matter of fact, however, it means that it will be the duty of the new commission to appoint an entire new police force for the cities and

towns named in the bill, as under its provisions the entire force, from the chief down, is legislated out of office. The bill, although pushed through the senate and in the house to a third reading, as an administrative measure, is not, now that its full meaning is understood, meeting with the approval of thinking men of either party and, as far as can be learned, its passage will not be accepted with general favor in the cities and towns to which its provisions apply.

The bill was passed by the senate two weeks ago and came into the house. On Tuesday of last week the committee on revision of statutes reported that the bill ought to pass. Representatives Pillsbury of Manchester, E. M. Smith of Peterborough and F. C. Jones of Lebanon, however, dissented and presented a minority report of inexpedient to legislate. The house accepted the majority report and sent the measure along for a third reading on Wednesday. On the following day, when the bill came up for final action, its opponents raised the point of no quorum and the bill went over until tomorrow.

The following is the bill:

Section 1. The provisions of this act shall apply to the cities of Manchester, Nashua, Portsmouth, Laconia, Somersworth, Dover and Berlin and to the town of Exeter.

Sec. 2. On or before September 1, 1913, the governor shall, with the advice and approval of the council, appoint and commission for each of said cities and said town a police commission consisting of three persons, one of whom shall hold office for one year, one for two years and one for three years from September 1, 1913, or until their successors are duly appointed and qualified. Said commissioners shall have been residents of the city or town where appointed at least five years immediately preceding the date of their appointment. The governor shall, annually on or before the first day of August thereafter, with the advice and approval of the council, appoint and commission one commissioner, who shall succeed the one whose term expires and who shall serve for three years from September first unless sooner removed as hereafter provided, and any vacancy in said board shall be filled in the same manner.

Sec. 3. The governor, with the advice and approval of the council shall have full power to remove any commissioner at any time.

Sec. 4. It shall be the duty of said police commissioners to appoint, such police officers, constables and superior officers as they may in their judgment deem necessary and to fix their compensation, provided, however, that nothing in this act shall be construed to authorize them to exceed the appropriation allowed by the city or town government for the police department.

Sec. 5. The compensation of the police commissioners shall be fixed by the respective city councils or the board of selectmen.

Sec. 6. The police commissioners shall have authority to remove any officer at any time for just cause and after due hearing, which cause shall be specified in the order of removal.

Sec. 7. The police commissioners shall have full power to make rules for the government of the police force and to enforce said rules.

AT HAMPTON AND STRATHAM

State Superintendent of Public Instruction H. C. Morrison is at Hampton and Stratham today in the interest of the schools. He will lecture in Hampton tonight and goes to Charlestown Wednesday for a conference of the school board. Friday he goes to the state normal school, Keene.

GOLD DUST makes dazzling bright dishes

If you could see your dishes and household utensils through a microscope you would realize that mere soap and water are insufficient to do more than wash off the surface.

Gold Dust not only cuts dirt and grease with scarcely any rubbing, but is an antiseptic that goes deep after every hidden impurity and germ.

Gold Dust sterilizes your kitchen things, and makes them wholesome and sanitary.

Gold Dust is the greatest labor-saver known.

Gold Dust is sold in 50 and 100 lb. bags and large packages. The large package means greater economy.

Let the GOLD DUST TWIN do your work.

THE RED MEN IN DISTRICT MEETING HERE

Work By Big Chiefs and Three Degrees Shown--Banquet and Concert Followed.

One of the largest gatherings of Red Men held in this city, was on Monday evening, at Pythian hall, when the annual meeting of District No. 10, comprising the tribes of Newmarket, Exeter, and Portsmouth, brought a large delegation of warriors to this city.

It was in the nature of a school of instruction arranged by District Deputy J. Verne Wood, and it was a most successful affair.

The work was all done by the Great Chief of the state, who explained the degrees of adoption, Warrior and Chief. The great chiefs were:

Great Sachem, Richard Eastman, Jefferson.

Great Senior Sagamore, Eugene Foss, Rochester.

Great Junior Sagamore, Joseph Noble, Dover.

Great Keeper of Wampum, Dr. Brigham, Salmon Falls.

Great Sannap, James Tetherwell, Exeter.

Following the work and instruction the gathering adjourned to the Argonne hall, where, a lobster supper was served by the Odd Ladies.

This was followed by brief addresses by the Great Chiefs and an entertainment by the vaudeville attraction from the Portsmouth Theatre.

There were about 130 present, including Dr. H. I. Durgin, Great Senior Sagamore of the Maine Reservation.

OVER \$10,000 SHORT IN STRIKE FUNDS

Boston, May 12.—Joseph Bedford, secretary of the committee to solicit funds for the striking operatives in the mills at Lawrence and their families during the great textile disturbance in that city between January and March, 1910, received \$10,800 of the fund which he has not accounted for or satisfactorily explained, according to the finding of Winfield St. John of Chicago, secretary of the national organization of the I. W. W. \$800 made payable to Thomas Powers of Providence, a textile worker in that city, and \$5000 to Desire Stur of Lawrence. It was claimed that these moneys were returned to the strikers' fund and used for that purpose, but upon the evidence Mr. St. John says he finds that the money was not so returned and used.

There was paid out of the fund to Joseph Shabben, treasurer of the strike committee, \$10,888.05 and to Angelo Rocco \$4,150.70 and in August Detoleneare \$4,079.53 aggregating \$25,088.33. Shabben attended to the wants of the Syrian people, Rocco looked after the Italians and Detoleneare the Franco-Belgian operatives. Rocco at the time was twenty-seven years of age, a student in the Lawrence high school and a member of the I. W. W. The work of Detoleneare was mainly in buying groceries for the relief stores and for the people especially under his charge. The accounts of Shabben fail to show the expenditures of \$2,588.02 and, although as to Rocco Mr. St. John is satisfied that he used the larger portion of the money he received for relief purposes, yet there is an item of \$226.91 for which no vouchers can be found.

SCOUTING HELPS BOYS TO FIND LIFE CALLINGS

Many Things Which the Scouts Do in the Spirit of Play Lead Them to Useful Occupations.

New York, May 12.—Through the Boy Scouts of America thousands of boys are being helped in deciding upon their life's work. As Scouts the boys are learning in the spirit of play many things that help them in their fight for success in the business world. The reason is that Scouting takes a boy's interest away from destructive mischief to useful things, and gradually leads him to the point of training for earning his own livelihood.

The value of the Scout Movement in helping boys select their calling was explained today by James E. West, Chief Scout Executive of the Boy Scouts of America. "The leaders of the Scout Movement," he said, "believe in showing boys how to have lots of fun. They realize that boys can get sport out of building log cabins, bridges, machinery and various other things. If the boy wants to take up such things, let him follow his inclination and have some adult teach him. If you do, you turn the boy from a wanderer into a producer. Boys often take up such things in play but if encouraged and made to realize they have special aptitude, they take up the study in real earnest. In this manner we have boys who are playing at road building, engineering, bridge building, first aid, firemanship, interpreting, forestry and other things that will furnish them splendid occupations."

Dr. Jordan to the Boy Scouts: Dr. David Starr Jordan, president of the Stanford University, wishes the Boy Scouts of America to remember that it is just as easy to do great things as small ones if you only know how. "The way to do great things," he says, "is to work patiently at little ones, doing each one right, and then using this skill to go on and do the next one. It is just as easy to live a successful life, to be strong, respected, and loved as it is to make a failure out of it. The only way is to start right and to start early. To do your duty in little things makes it possible to do it in large things. True success in life is possible only to men who do their duty. The duties and ideals of the Scout, the dealing with out-of-door things, the examples of alertness, of obedience, of kindness and helpfulness to man and beast, of sym-

pathy with all kinds of people and with things that are alive, the cutting out of idleness, of loafing, of bad habits, and bad resorts, all this tends toward making a real man in time out of any live boy."

Appeal to the Chief Scout Book Worm.

The fame of Franklin K. Mathews as Chief Scout Book Worm seems to spread over the entire world. The latest sealer after advice as to the best books for boys is the wife of H. R. Lankford Worrall, M. D., medical missionary, Arabian Mission, Reformed Church of America in Bahrain, Persian Gulf, who has written to Mr. Mathews for suggestions for books to her boy six years old. In her letter she says: "He has a tendency to play with matches and set fire to small things. He is here in this Mohammedan country with many evils around him continually. We hope to take him to a Christian school in India in a few months. But I want to cure some of at least of these tendencies as soon as possible."

Scouts Save Woodland.

Troop No. 1 of the Boy Scouts of America of River Edge, New Jersey, under Milton B. Sackett, Scout Master, extinguished a forest fire in North Hackensack recently, and saved a great deal of timber. Scout Master Sackett's own story tells just how it was done. "My troop," he said, "while out on a practice guard march on Saturday night, which is our regular meeting night, discovered the glow from the flames in the woods. We marched to quick steps with staves linked from boy to boy, as the road was very dark. Arriving at the scene of the fire we found that it was a bad brush fire about one-quarter mile long. The Wolf patrol attacked it at the east end, the Eagles at the west, and the Scout Master and his orderly in the center. It took about 30 minutes to get it under control. If the boys had not taken such prompt action some valuable timber would have been destroyed as the flames were already running up some of the trees."

College Summer Course in Scouting.

Summer School of the University of Virginia offers under its courses on Rural School Problems and Recreation and Playgrounds, a careful study of the Boy Scout Movement. It is planned to show in the course the means of teaching and holding boys through their activities and interests and the Boy Scouts is taken as the typical character building form of recreation. Prof. Myron T. Scudder, A. M., an eminent graduate of Rutgers College, author and school principal, gives the course at the Virginia University. Other colleges and summer schools are also considering the importance of the Boy Scout Movement in all recreational problems.

Activities of the Boy Scouts.

The Boy Scouts of America are invited to participate in the Chicago Olympic games which will be held in that city on Saturday, June 14.

Mr. George Oakes, Scout Master of New Richmond, Wisconsin, writes that the Boy Scouts of his city have raised \$10 to aid the Boy Scouts who suffered in the recent cyclone and floods.

Dr. J. Lette is organizing the first troop of Portuguese Scouts in Fall River, Mass., and also is working with business men to organize a Scout council in that city.

The Guaranteed Floor Varnish

LEAKY radiators can't hurt your floors if covered with Valspar. It's the only varnish that water won't turn white.

A Valsparred floor never needs oiling. Simply wash it with hot water and soap. It's easier and more sanitary.

Valspar dries over night. Absolutely guaranteed to last at least twice as long as other varnishes for floors, furniture, bath-rooms, etc. Best for porches and any out-door use. Ask us about Valspar.

Students to pursue special courses in Electrical Engineering, interesting and instructive work in laboratories. No entrance examinations. Fine opportunity. Also college preparatory. Write for Bulletin to Prof. F. E. Austin, Manchester, N. H. ho 410 17

ITEMS OF INTEREST TO NAVY YARD EMPLOYEES

Looks Good for Southern Yards

Secretary Daniels will reach Washington this week from his inspection trip to the navy yards at New Orleans, Pensacola, Key West, Port Royal and Charleston. The purpose of the trip was to obtain first hand information regarding the use to which these yards can be placed. It is probable that one of the gulf yards will be restored and used as a supply base for smaller vessels.

Johnson to the Wisconsin

Chief Machinist Otto A. Johnson of the machinery division has been ordered to the U. S. S. Washington at League Island.

Naval Orders

Commander C. D. Stearns has been detached from the Ohio, June 2, 1913, and ordered to command of the naval station, Tabula, Samoa.

Lieut. Commander Chas. Shackford, detached Wisconsin to home, wait orders.

Lieut. Commander W. R. Gherardi detached office of naval intelligence, navy department, to naval attaché, Berlin, Germany.

Lieut. H. G. Bartholow, detached branch hydrographic office, San Francisco, Cal., to Louisiana, as navigator.

Lieut. J. J. McCheskin to Cleveland.

Lieut. P. M. Robinson, detached naval academy, June 7, 1913, to Kansas.

Lieut. William Daggaley, detached naval academy, June 7, 1913, to Delaware.

Lieut. Conant Taylor, detached naval academy, June 7, 1913 to Virginia.

Lieut. Benjamin Dalton, Jr., detached naval academy, June 7, 1913, to Kansas.

Lieut. T. F. Caldwell, detached naval academy, June 7, 1913 to Michigan.

Lieut. W. O. Spears, detached naval academy June 7, 1913, to North Dakota.

Lieut. A. K. Shapp, detached naval academy, June 7, 1913 to Rhode Island.

Lieut. J. P. Miller, detached naval academy, June 7, 1913, to Nebraska.

Lieut. L. N. McElrath, detached naval academy, June 7, 1913 to New Jersey.

Lieut. C. C. Hartman, detached naval academy, June 7, 1913 to South Carolina.

Lieut. J. S. Woods, detached Intrepid, to Georgia.

Lieut. J. C. Farley, detached naval academy, June 7, 1913 to Louisiana.

Lieut. Junior Grade, Randolph Jacobs, detached South Carolina to flag secretary commander in chief Atlantic reserve fleet.

Lieut. Junior Grade, N. H. White, Jr., to naval recruiting station, Galveston, Tex.

Lieut. Junior Grade, P. D. Pryor, detached Cleveland to Intrepid.

All Names Dropped

Under the classified civil service, the following notice is being sent out by the recorder of the labor board which accompanies each application blank.

All applications submitted under the previous system of employment will be cancelled at once and new ones.

For Monday and Tuesday "Pathe's Weekly of Current Events" gives you all the latest and most interesting happenings of the world at a glance.

"The End of the Quest"—Lubin. A powerful two reel melodrama full of clarity, faith and absorbing heart interest.

Song—Dixie Spells "Home Sweet Home."

Miss Nellie Ramey "The Alien"—Kalem.

The story of an Italian who brings justice to a new home in the United States.

"General Scott's Protege"—Lubin. A sensational western dramatic, military subject in which a little Italian girl proves her loyalty to the general in a most thrilling and remarkable manner.

Song—You're a Great Big Blue Eyed Baby.

Miss Nellie Ramey "Blame the Wife"—The Daylight Burglar.

Two good Biograph farce comedies one and two reel.

Matinee 2.30. Evening 7.00. Saturday evening 6.30.

SPECIAL

Coming Wednesday and Thursday, May 14, and 15, Kalem's Sensational Masterpiece in Three Reels: "THE EXPOSURE OF THE LAND SWINDLERS." Featuring William J. Burns, the famous detective and Miss Alice Joyce. Watch our display boards.

In Effect On Monday

The civil service applying to all navy yard employees officially went into effect on Monday. Today the several thousand names on the eligible list at all navy yards were cancelled. About 2000 at Boston and 500 at this station must go against the required examination before they can hereafter get a standing on the registration list. Today the recorder of the labor board is sending out the two forms of blanks to those who have been dropped from the list. Under these forms laborers and others engaged upon manual work which requires no mechanical skill or trade knowledge, such as boys, hod carriers, laborers, common, stable keepers, teamsters, will be examined physically by navy medical men.

Apprentices, helpers, and others engaged upon work which requires some mechanical skill or trade knowledge, such as apprentices, boys, rivet heaters, fitters, helpers, holders-on will be examined by a civilian doctor to be appointed for that duty.

Work Started Again

Previous orders to build up the work of converting the collier Leontidas to a survey ship have been cancelled, and the several departments have again been instructed to proceed with all work on the vessel as formerly planned.

The First Call Today

The first call under the civil service regulation sent out today was for 20 laborers in the public works. It is safe to say, that when the men appear against this thing, they won't be carried away with it, and will have reason to remember what the previous administration put over on them in the way of red tape necessary to doing a lick in the trench.

What's the Matter?

Reports have it that a notice on the bulletin board of the gunboat Wheeling is not doing much good for Portsmouth.

Red Men Visit Yard

Great Sachem Richard M. Eastman, of the New Hampshire 1. O. R. M. and other grand officers visited the navy yard this morning and inspected the places of interest.

The Herald Hears

That Lou Dillon will not be seen on the turf this season.

That lovers of fast horse flesh will miss this week.

That the wings of gossip at the navy yard is loaded today.

That Prof. Gove of the Gimlet Club is high loper on the claim date.

That he says he will dig more claims by night than any two men of the Vaughan Street Fishing Club can turn over by day.

That there was a lively mix-up on Daniel Street Saturday afternoon.

That the Joker with the gun was certainly conspicuous.

That it looked like a free for all for a while.

That the new telephone office at York Bench is ready for summer service.

That many a man likes to be called a hero because he really thinks he is one.

That it is not necessary to advertise your good opinion of yourself; most people gather the impression correctly.

That the Nurses Home on Jenkins avenue is in the hands of the painters who are finishing up the exterior.

That the Metropolitan Club are to shortly have an outing at Loan Cove.

That George Straight of Bow street says his bird has not come back.

That reports have misapplied the name of his fancy fowl.

That shows when that clock on the ward room was ever correct.

That the large lobster in the window of the Sea Grill on Congress street has put that Elliot fisherman as high-liner with the net.

That James Marcello has purchased the property at 137-143 Market street.

That a large business sale may shortly come to a head.

That the police board held no meeting on Saturday night.

That Commissioner Leavitt being away from the city all business went over to the meeting of May 17.

That there is always a lot of places to go before you go broke.

That the young lady at Elliot who entertained six lovers on last Sunday evening has them all beat.

That the boys are now wondering where they are at.

That it is a toss up to see who will win her hand.

That this stunt should reach the moving picture camera.

That many a man gets off the water wagon simply to drown his sorrows.

That those whiskey tablets at Bladeford are making a hit.

GOT GAMBLERS.

While Looking for a Greek Wanted for Assault.

Chief of Police Stone at Bladeford got a message from the Chief of Somersworth to be on the lookout for a Greek who had figured in a cutting affair in Somersworth. While hunting for the Greek he ran into a gambling joint and found five men with the goods. Three of them, including the proprietor, settled in police court.

FIRE ON DEER STREET.

Alarm from Box 9 at 2.40 This Afternoon.

At 2.40 o'clock this Tuesday afternoon an alarm of fire was sounded from Box 9, for a fire in the house on Deer street, occupied by the family of Samuel J. Gerrish. The fire was on the roof of the building and was soon extinguished.

MAYOR WILL GREET FORESTERS

Congressman Eugene H. Reed and Mayor Charles C. Hayes of Manchester will be among the speakers at the banquet to delegates to the Foresters of America state convention, May 20 at Manchester. Mayor Hayes will open the convention in the morning at Foresters' Hall, Elm street by delivering an address of welcome. The convention will be continued the following day.
